## portfolio Entry

### MAHARANI

An Indian word that means queen Maharani Indian Restaurant opened for business in 2000. Since then, it has been offering authentic Indian food to the public. Maharani takes the best culinary extravaganza of the great moguls in order to bring a delicious and delightful "repast."

On the culinary level, it was the East that conquered the West. And the universal popularity of curry is the delicious proof. Our curry is based on an old family recipe. The types of herbs and spices we use are chosen not only for their flavor, but also for their digestive and nutritional values. We use only the finest ingredients to prepare dishes that are as healthy as they are delicious.
